PROFILE

Cloud & DevOps Engineer with 4+ years of UI/UX design experience across fintech, Web3, and SaaS products. Specialising in secure AWS infrastructure, CI/CD automation, and Infrastructure as Code with Terraform. Background in design means cleaner documentation, sharper system communication, and genuine care for developer experience, not just uptime. Proven track record of delivering under pressure, exceeding KPIs, and mentoring others in cloud and design. Currently pursuing AWS Cloud Practitioner (CLF-C02).

TECHNICAL SKILLS

Cloud & AWS	AWS S3, CloudFront, Lambda, API Gateway, SES, IAM, EC2, CloudWatch, SNS, ECR, ECS Fargate
DevOps & IaC	Terraform, GitHub Actions (CI/CD), Docker, Multi-environment pipelines, S3 + DynamoDB remote state
Security	Origin Access Control (OAC), IAM least-privilege policies, HTTPS enforcement, bucket policy hardening
Design	Figma, Framer, Prototyping, User Research, Design Systems, Wireframing, Accessibility, Gamification
Development	React, Vite, HTML, CSS, JavaScript, Python (boto3), Git

AWS CLOUD PROJECTS

Static Site + CI/CD Pipeline · Personal Project *2026 · AWS us-east-1*

- Deployed portfolio to S3 + CloudFront with OAC, zero public bucket access; HTTPS enforced globally
- GitHub Actions workflow auto-builds and deploys on every git push with CloudFront cache invalidation
- Cost: ~$0.50/month vs ~$20/month EC2 equivalent, 97% cost reduction

Serverless Contact Form API · Personal Project *2026 · AWS us-east-1*

- Event-driven pipeline: API Gateway → Lambda (Python) → SES, zero servers, scales to zero when idle
- Least-privilege IAM role, CORS handling, and input validation; live emails delivered within seconds

Infrastructure as Code - Terraform · Personal Project *2026 · AWS us-east-1*

- Entire AWS stack in Terraform HCL with S3 remote backend + DynamoDB state locking
- Full lifecycle: terraform apply provisions all resources in < 3 minutes; terraform destroy cleans up completely

Observability Dashboard · Personal Project *2026 · AWS us-east-1*

- CloudWatch dashboard: CPU, memory (custom agent), disk I/O, error rate, SNS alarm fires in < 90 seconds

Containerised ECS Deployment · Personal Project *2026 · AWS us-east-1*

- Multi-stage Docker build reduced image from 1.2GB → 45MB; deployed on ECS Fargate behind an ALB

Multi-Environment CI/CD Pipeline · Personal Project *2026 · AWS us-east-1*

- Dev → Staging → Prod via Terraform workspaces with isolated state; manual approval gate on production

VOLUNTEERING

Cloud & Tech Mentor · Found Africa Technology *Jan 2026 – Present · Lagos, Nigeria*

- Mentor early-career professionals transitioning into cloud and tech roles through 1:1 sessions and group workshops
- Continuously upskilling via Google Cloud Learning Platform, applying learnings directly to mentoring content
- Deliver introductory AWS workshops covering S3, IAM, and cloud fundamentals to cohorts of 10–20 learners
- Review mentees' portfolios and GitHub projects; provide structured feedback on documentation and architecture

WORK EXPERIENCE

UI/UX Designer & Framer Developer · Banks Studio *2022 – 2025 · Remote · Contract*

- Designed and developed end-to-end digital products for startups and SMEs across Web3, fintech, e-commerce, and SaaS
- Built production websites using Framer; maintained design systems in Figma, reduced handoff time by 40%
- Conducted usability testing and user interviews; translated findings into measurable UX improvements
- Collaborated with developers on component specs, interaction states, and accessibility compliance

UI/UX Designer · Alps Finance *2022 · Remote · Full-Time*

- Designed full product experience for a Web3 SocialFi platform, from onboarding flows to gamified retention loops
- Ensured customer onboarding and retention through a gamified UX; built and maintained the Figma design system
- Reduced design-to-dev handoff time by 40% through structured component documentation

UI/UX Consultant · Zesty Market *2022 · Remote · Part-Time*

- Designed UX for a metaverse ad-space marketplace, unified experience across platforms reduced drop-off rates by 17%
- Delivered high-fidelity prototypes, user research, and design system documentation within tight timelines

Direct Sales Executive · United Bank for Africa (UBA) *2022 · Nigeria · Full-Time*

- Exceeded all monthly KPIs: deposit mobilisation +225%, ATM card sales +65%, account openings +35%, channel onboarding +10%
- Managed customer relationships and onboarded clients onto UBA's digital banking platforms and channels
